HISTORICAL CATCHER VESSEL EDR

Introduction

This report collects information on Bering Sea and Aleutian Islands Management Area (BSAI) crab operations, including Western Alaska Community Development Quota Program (CDQ) crab fisheries. These fisheries are referred to as crab rationalization fisheries (CR fisheries). Pursuant to the legislation, the data and identifiers will also be used for program enforcement and determination of qualification for quota shares. Consequently, identifiers and data will be disclosed to NOAA Enforcement, NOAA General Counsel, the Antitrust Division of the Department of Justice, the Federal Trade Commission, and NOAA Restricted Access Management Program.

You have received this form because our records show that you are either the owner of a catcher vessel that participated in the BSAI crab fisheries in the past or were leased a catcher vessel that participated in the BSAI crab fisheries in the past. **You are required to submit the Certification Pages (pages 5 and 6) and any additional information requested in the Crab Economic Data Report (EDR). Failure to submit an EDR form when required will result in delay in and/or acceptance of any and all crab permit applications.**

To make sure that each company is consistently and accurately completing the EDR, random audits will be performed by a qualified accountant on some of the EDRs for a subset of the crab fishery participants. This step will ensure that the data can be relied upon to produce accurate and reliable information for the Alaska crab fisheries.

Auditors will verify records by comparing specific elements of the report with your accounting records. To make this activity as efficient and non-intrusive as possible, we suggest that you:

1. Keep a copy of the completed EDR or certification pages you submit to the Data Collection Agent (DCA). Copy and attach extra sheets as needed.
2. Keep a file that has all of the supporting information used in the preparation of the EDR.
3. Make sure that the EDR agrees to the company's highest level of financial information. For this purpose, the highest level of financial information is defined in order as:
 - a. Audited financial statements
 - b. Reviewed financial statements
 - c. Compiled financial statements
 - d. Tax returns.

Record only whole numbers. Round up dollar figures to the next highest dollar.

Any owner or leaseholder of a catcher vessel during any period in the calendar year identified on the EDR in which the catcher vessel was used to harvest crab in a Crab Rationalization (CR) fishery must submit to the DCA, at the address provided on the form, an EDR for a catcher vessel.

Definition of "Leaseholder": For the purpose of defining the persons responsible for submitting the EDR, a Leaseholder is a person, other than the owner of the catcher vessel for which the EDR is required, who: was identified as the leaseholder, in a written lease, of the catcher vessel, **OR** paid expenses of the catcher vessel, **OR** claimed expenses for the catcher vessel as a business expense on schedule C of his/her Federal Income Tax Return, or on a State Income Tax Return.

5.0 Vessel Costs (Continued)	
5.2 Vessel-specific Costs	Calendar year:

Many of the following costs may not be solely attributable to crab fishing and thus may need to be prorated over all your fishing activities. Record the TOTAL annual costs for this vessel only for each category. If the reported total cost is not exclusively attributed for BSAI crab operations, please place an "X" in the "COST RELATED TO MORE THAN JUST CRAB FISHING?" column. The analyst will prorate this amount over all vessel activities.

a. Capitalized Expenditures for Vessel, Gear, and Equipment: the total capitalized expenditures for the year related to crab harvesting. Exclude the pot and crabbing gear and line purchases listed in Sections 5.1.c and 5.1.d.

b. Repair and Maintenance for Vessel, Gear, and Equipment: the total repair and maintenance expenses for maintaining this vessel and repairing mechanical and physical problems with the vessel or equipment (exclude capitalized expenditures). Exclude expenses or repairs that result solely from non-crab fisheries. Include salaries of employees whose job is to perform R&M only if their wages are *not* already included in Section 4.1.

c. Other Vessel-specific Costs; Specify: record any other significant cost(s) that were incurred in order to fish for crab in this calendar year that were not included in the categories above, and not reported in the crab season-specific table (Section 5.1), such as other insurance expenses. Please specify the nature of the expense(s) and do not list costs of permits or licenses.
