WASHINGTON COASTAL DUNGENESS CRAB INDUSTRY NOTICE

May 18, 2021

SPECIAL MANAGEMENT AREA CHANGE:
correction

The purpose of this notice is to inform you of changes to the Quinault Special Management Area (SMA).

As part of our Harvest Management Plan with the Quinault Indian Nation (QIN), state and QIN managers and policy makers evaluate catch throughout the season to determine the need for in-season measures necessary to achieve harvest-sharing goals for both the state and QIN. The most recent data summary shows that harvest sharing is at approximately 56.9 percent Quinault and 43.1 percent State. As a result, at 8:00 am on May 21, the southern boundary of the Quinault Primary SMA will move from Joe Creek River to the Moclips River. This change will open approximately two additional miles of fishing area to state fishers. To reduce crowding, a 150-pot limit will be in place in the area between the Copalis River to the Moclips River out to 27 fathoms until further notice.

State and QIN managers will continue to exchange data and evaluate harvest sharing and will consider the need for additional measures as the season progresses.

Quinault:

A Quinault **secondary SMA** (SSMA) will be established at 8:00 a.m. on May 21, 2021. The area that remains closed to state fishers includes the area shoreward the 27-fathom depth curve line at the coordinates below, between the mouth of the the Moclips River (47°14.80') and Split Rock (47°24.50) according to the following coordinates:

- Northeast Corner (Split Rock): 47°24.50' N. Lat. 124°20.00' W. Lon.
- Northwest Corner: 47°24.50' N. Lat. 124°32.40' W. Lon.
- Southwest Corner: 47°14.80' N. Lat. 124°28.43' W. Lon.
- Southeast Corner (Moclips River): 47°14.80' N. Lat. 124°13.20' W. Lon.

There is a 150-pot limit in the area that opens to state fishers between the Copalis River (47°08.00) and the Moclips River (47°14.80) shoreward of a line at the 27-fathom depth curve. This pot limit will be in place until further notice.

Department of Fish and Wildlife

Region Six • 48 Devonshire Road • Montesano, Washington 98563-9618 • (360) 249-4628 • FAX (360) 664-0689

Fishers must pre-register with WDFW **twenty-four hours** prior to deploying gear in either area by one of the three following methods:

- Fax transmission to Robert Morgan at 360-249-1229;
- E-mail to Robert Morgan at Robert.Morgan@dfw.wa.gov; or
- Telephone call to Robert Morgan at 360-249-1206

Quileute:

The Quileute SMA will open to state fishers at 8 am May 1, 2021. The Quileute SMA is described as the area from Cape Johnson to Destruction Island shoreward the 30-fathom depth curve line at the coordinates below:

- | | | |
|---|-------------------|--------------------|
| • Northeast Corner (Cape Johnson): | 47°58.00' N. Lat. | 124°40.40' W. Lon. |
| • Northwest Corner: | 47°58.00' N. Lat. | 124°49.00' W. Lon. |
| • Southwest Corner: | 47°40.50' N. Lat. | 124°40.00' W. Lon. |
| • Southeast Corner: (Destruction Island): | 47°40.50' N. Lat. | 124°24.43' W. Lon. |

There is a 200-pot limit in this area until 8:00 A.M. June 1, 2021 (the first 30-days following the opening of this SMA). Fishers must pre-register with WDFW **twenty-four hours** prior to deploying gear in this area. Fishers must pre-register by one of the three following methods:

- Fax transmission to Robert Morgan at 360-249-1229;
- E-mail to Robert Morgan at Robert.Morgan@dfw.wa.gov; or
- Telephone call to Robert Morgan at 360-249-1206.
