

PSMFC Information

The PSMFC Compact states that its purpose shall be “to promote the better utilization of fisheries — marine, shell, and anadromous, which are of mutual concern, and to develop a joint program of protection and prevention of physical waste of such fisheries in all of those areas of the Pacific Ocean over which the compacting states jointly or separately now have or may hereafter acquire jurisdiction.”

We are very proud to support the ongoing fisheries needs and activities along the West Coast of the United States. To learn more about our organization, please browse through our organizational overview, staff and commissioners, and project overviews and websites.
