PUBLIC REPORTING BURDEN STATEMENT

Public reporting burden for this collection of information is estimated to average 4 hours per response, including time for reviewing the instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden to Assistant Regional Administrator, Sustainable Fisheries Division, NOAA National Marine Fisheries Service, P.O. Box 21668, Juneau, AK 99802-1668.

ADDITIONAL INFORMATION

Before completing this form, please note the following: 1) Notwithstanding any other provision of law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number; 2) This information is mandatory and is required to manage commercial fishing efforts for groundfish under 50 CFR part 679 and under section 402(a) of the Magnuson-Stevens Act (16 U.S.C. 1801, et seq.) as amended in 2006; 3) Responses to this information request are confidential under section 402(b) of the Magnuson-Stevens Act. They are also confidential under NOAA Administrative Order 216-100, which sets forth procedures to protect confidentiality of fishery statistics.

PRIVACY ACT STATEMENT

Authority: The collection of this information is authorized under the Magnuson-Stevens Fishery Conservation and Management Act, 16 U.S.C 1801 et seq.

Purpose: In order to manage U.S. fisheries, the NOAA National Marine Fisheries Service uses economic data reports (EDRs) under the Amendment 91 Bering Sea Chinook Salmon Bycatch Management EDR Program to collect baseline information to inform the North Pacific Fishery Management Council (NPFMC) when making conservation and management decisions. The primary purpose for requesting costs and revenues from each participant is to develop baseline information on harvesters, processors, and communities. NOAA and the NPFMC will use this information in aggregate form.

Routine Uses: The Department will use this information to identify fishery participants and assess management impacts on harvesters, processors, and the surrounding communities. Disclosure of this information is permitted under the Privacy Act of 1974 (5 U.S.C. Section 552a), to be shared within NMFS offices, in order to coordinate monitoring and management of sustainability of fisheries and protected resources, as well as with the applicable State or Regional Marine Fisheries Commissions and International Organizations. Disclosure of this information is also subject to all of the published routine uses as identified in the [Privacy Act System of Records Notice COMMERCE/NOAA-16](#), Economic Data Reports for Alaska Federally Regulated Fisheries off the Coast of Alaska.

ANNUAL CHINOOK EDR: VESSEL MASTER SURVEY

The Chinook Salmon Economic Data Report (EDR) Program provides additional data to assess the effectiveness of the Chinook salmon bycatch management measures implemented under Amendment 91 to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area. The information collected is a combination of quantitative and qualitative data to conduct descriptive and quantitative analysis and comparisons of the annual and seasonal changes in the pollock fleet under Amendment 91.

An owner or leaseholder of an American Fisheries Act (AFA) permitted vessel must submit a Vessel Master Survey completed by each master of each vessel used to harvest pollock in the Bering Sea in the previous year. It is the responsibility of the vessel owner/leaseholder to obtain completed Vessel Master Surveys and submit all completed surveys to NMFS.

The Vessel Master Survey has two parts. Part 1 is the Vessel Owner Certification Page. Part 2, Pollock Fishing and Salmon Bycatch Avoidance, is to be completed by the vessel master and asks about different aspects of decision-making during the pollock season, including incentives, fishing location choices, and salmon bycatch reduction measures.

Please consider the following questions carefully and provide the most complete answers you can. Where applicable, please note any differences between the A and B pollock seasons. Please attach extra sheets if more space is needed to complete your answers.

1. If the vessel participated in an Incentive Plan Agreement (IPA), did the IPA affect your fishing strategy?
 YES NO

If YES, please describe and discuss what incentives had the largest impact on your strategy.

2. Did the amount and/or cost of Chinook PSC allocation available to the vessel lead you to make changes in pollock fishing operations?
 YES NO

If YES, please describe.

3. How would you compare the Chinook salmon bycatch and pollock conditions during the A and B seasons this year relative to the last two years? Please describe any unique aspects of the season.
4. Did Chinook salmon bycatch conditions cause you to delay the start of your pollock fishing or otherwise alter the timing of your pollock fishing for some period during the past A and/or B season?
 YES NO

If YES, please describe the Chinook salmon bycatch condition, when it occurred, and any change in your pollock fishing as a result.

5. In the past year, did you end a trip and return to port early because of Chinook salmon bycatch conditions?

YES NO

If YES, please indicate the number of trips that this occurred in each season (use a checkmark ✓ to indicate appropriate answer for each season).

Number of trips suspended due to bycatch	Season	
	A	B
0		
1-3		
4-10		
More than 10		

6. Please describe how any area closures or restrictions for the purpose of reducing Chinook salmon bycatch affected where and how you fished.

7. Please describe how any regulatory or other area closures or restrictions for a purpose other than reducing Chinook salmon bycatch affected where and how you fished.

8. Compared to a typical year, did weather or sea ice conditions have more, less, or about the same impact on fishing as in a typical year? Please describe especially if there were particularly uncommon conditions at any point this year. If these conditions had an impact on your ability to avoid Chinook salmon bycatch, please describe.

9. Were there exceptional factors that affected your pollock fishing this year? For example, were there unusual market or stock conditions, unusual pollock fishing conditions, or maintenance problems? Please describe.

10. Separate from an Incentive Plan Agreement, were there other incentives for you to reduce Chinook salmon bycatch?

YES NO

If YES, please describe.

11. Did actual or potential bycatch of species other than Chinook salmon cause you to change your harvesting decisions during the pollock season?

YES NO

If YES, please describe.
