

All

A coastal crab Advisory Board meeting has been scheduled for June 9, 2009 at 1:30 pm at the Montesano City Hall.

The purpose of the meeting is to provide an overview of the coastal commercial crab fishery with a focus on the most recent few seasons, with an opportunity for group discussion relative to upcoming 2009-2010 season.

Additional agenda items include a review of proposed regulation changes relative to the implementation of ESHB 1516, buyback report update, pre-season testing information and introduction of the Coastal Crab Advisory Board members for the 2009-2011 term.

We have reserved the Montesano City Hall to accommodate additional industry members that might be interested in the opportunity to hear the fishery review and participate in the discussions when we aren't so pressured with season opening decisions. Feel free to share this notice with those that you think might be interested.
