Dear Coastal Dungeness Crab Fisher:

The purpose of this letter is to provide you with final details relative to the 2017-18 coastal Dungeness crab fishery **including information on the opening of the state fishery north of Klipsan Beach.**

Recall that in our December 21, 2017 letter we explained that this year's State-Quinault Harvest Management Plan takes an approach that uses preliminary catch information from the Quinault fishery to provide insight on crab abundance to inform the number of head-start days. A sliding scale approach was developed that defines crab abundance as high, medium or low based on catch after the first 31 days of the Quinault season.

WDFW and Quinault managers met on January 10, 2018 to review catch data from the first 31 days of the Quinault fishery. Based on that information and the sliding scale agreed to for the 2017-2018 season, Quinault will get a 49-day head start which results in a state season opening in the area between Klipsan Beach and the US/Canada border on January 28, 2018.

In addition, the harvest management plan with the Quileute Tribe includes a provision to ensure that there are 20 fishable days for Quileute fishers between December 1 and January 15th prior to opening the state fishery north of Destruction Island. This provision has been satisfied and the area north of Destruction Island will open concurrently with the area north of Klipsan Beach. The State-Quileute agreement also includes a provisions that guides when the area between the Queets River and Destruction Island is open based on Quileute catch in the entire Quileute U&A. Given low early season catch for Quileute, the area between Queets and Destruction Island will open concurrently with the area north of Klipsan Beach.

STATE SEASON OPENING NORTH OF KLIPSAN BEACH:

- **The state coastal commercial Dungeness crab fishery between Klipsan Beach (46°28.00) and the US/Canada border will open at 9:00 am, January 28, 2018.**
- **A 73-hour gear pre-set period will begin at 8:00 am January 25, 2018.**

- **Hold inspections** will be conducted starting at noon on January 27, 2018.
- Temporary pot limits in place south of Klipsan Beach will be removed at 8:00 am January 25, 2018.

Please be sure to familiarize yourself with the management measures described below before you begin your fishing operations and stay informed relative to additional changes.
