

# **Cost, Earnings and Employment Survey**

**for**

## **Pollock Catcher Vessels**

**Vessel Name:** {provide info we have}  
**Owner:** {provide info we have}

Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number.

The OMB Control Number for this survey is 0648-0369 and expires 4/30/2002.

While this is a voluntary survey, this information is needed to respond to requirements of the Magnuson-Stevens Fishery Conservation and Management Act. In accordance with Section 402(b), the Regulatory Flexibility Act and NOAA Administrative Order 216-100, "Confidentiality of Fishery Statistics", any information submitted to NMFS by any person in response to this survey shall be considered confidential and shall not be disclosed except to: (1) federal employees and council employees who are responsible for fishery management plan development and monitoring; (2) state employees pursuant to an agreement with the Secretary of Commerce that prevents public disclosure of this information; or (3) when required by court order.

Public burden for this collection of information is estimated at 2 hours per survey, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing the questionnaires. Send comments regarding this burden estimate or any other aspect of this data collection, including suggestion for reducing the burden, to Dan Holland, NMFS, Alaska Fisheries Science Center, National Marine Fisheries Service, 7600 Sand Point Way NE, Bldg. 4, Seattle, WA 98115.

## **Instructions for Completing Questionnaires**

These questionnaires are designed to collect information on individual vessels even if the vessel is part of a larger company. The intent is to enable NMFS to evaluate each vessel as a stand-alone entity. If this vessel is part of a larger company with multiple vessels or other operations we request that you report only costs and revenues that are allocated to this vessel. These questionnaires also attempt to collect information that will enable NMFS to evaluate the economic performance of individual vessels and the fleet on a fishery-by-fishery basis. Consequently the questionnaires request a breakdown of revenues and some expenditures on a fishery-by-fishery basis.

This survey instrument is divided into three separate questionnaires. The first questionnaire requests current information about the vessel and the company that operates it. NMFS already maintains some of this data. The data NMFS has on record is listed and you are asked to verify or correct that information.

Also included are two separate fiscal year Cost, Earnings and Employment questionnaires: one for the vessel's 1998 fiscal year and one for the vessel's 1997 fiscal year. These questionnaires are identical except for the dates, and each is divided into three sections. Section 1 requests information about the activities of the vessel and its revenues on a fishery-by-fishery basis. Section 2 requests information about the vessel's expenditures (both capital expenditures and expenses). We ask that you separate out capital expenditures from expenses following the same procedure you use for tax accounting purposes so that the total expenses listed in the questionnaire will be in accord with your own financial records. For both capital expenditures and expenses we request the total expenditures for the fiscal year. For certain categories of expenses, which can clearly be tied to particular fisheries, we also request a more detailed breakdown of expenses. Section 3 requests information about employment. This includes information on crew size, average trip length and the crew payment system.

If you would like an additional copy of the questionnaires please let us know (contact information is on the last page of the questionnaire booklet). They can also be downloaded from the Pacific States Marine Fishery Commission's web site at:

## ***Fiscal Year 1998 Questionnaire***

All of the following questions pertain to the vessel's fiscal year.

### ***Section 1: Fiscal 1998 Revenues***

1.1 In the table below, please provide total revenue earned, net of landing taxes, for each fishery/season in which the vessel participated during fiscal year 1998. Include all post-season adjustments as well as payments made during or at the end of the season. Two rows are provided for each groundfish fishery. In the first row, give revenues earned for the target species. In the second row, indicate combined revenues from all non-target species sold during that fishery. Round all answers to the nearest 100 dollars.

<b>TARGET FISHERY AND SEASON</b>	<b>SPECIES</b>	<b>FISCAL YEAR 1998 EX-VESSEL FISH SALES REVENUE (US \$)</b>
a. BSAI Pollock (Jan - Apr)	1. Pollock	
	2. All other species	
b. BSAI Pollock (May - Dec)	1. Pollock
