

WELCOME

Eighteenth Pacific Coast Steelhead Management Meeting (1991-2023)

Scope of Steelhead Meeting

- Limit the size of in-person meeting to around 100 people to encourage personal interactions and sharing of information.
- Include researchers and managers involved with the management of steelhead work throughout their native range.
- Encourage participation from wide variety of state, provincial and federal agencies, tribal governments, environmental representatives and students.

Meeting Format

- Limit the size of in-person meeting to around 100 people to encourage personal interactions and sharing of information.
- Agenda topics for the meeting are established by the steering committee.
- Session chairs are selected and they solicit presentations to develop and fill their session based on guidance from steering committee.
 - There is no open call for presentations as in AFS meetings
 - Meeting locations are rotated among States
